Treating Hypothyroidism: Issues in the Tissues

Elizabeth McAninch, MD
Assistant Professor
Division of Endocrinology and Metabolism
Department of Medicine
Rush University Medical Center

Tuesday, December 12, 2017, 12:30 pm
University Tower, Room 706
Teleconferencing via Zoom-Medicine

Objectives: At the conclusion of this session, the participant is expected to be able to

- List actions of thyroid hormone in different tissues
- Describe the role of tissue-specific de-iodinases in determining thyroid activity
- Describe evidence of risk alleles in the Type 2 Deiodinase pathway

Intended Audience: Faculty
Contact Information: Dr. Mari Shiraishi, mas82@hawaii.edu, On-line evaluation

This CME activity is sponsored by the Hawaii Consortium for Continuing Medical Education, a joint venture between the Hawaii Medical Association and the John A. Burns School of Medicine. The Hawaii Consortium for Continuing Medical Education is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The Hawaii Consortium for Continuing Medical Education designates this live activity for a maximum of 1.0 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.
