

The Dr. Elizabeth Tam Medicine Academy Clinician Educator Fellowship

The Dr. Elizabeth Tam Medicine Academy (ETMA)

ETMA was established through the generosity of the Grattan ‘Ohana to honor the legacy of Dr. Elizabeth Tam, whose leadership, commitment to excellence, and passion for teaching helped shape generations of physicians. The Academy is dedicated to advancing medical education by cultivating exceptional academic clinician-educators, fostering innovation in teaching and learning, and supporting the professional growth of faculty who inspire the next generation of physicians.

The Clinician Educator Fellowship

The Clinician Educator Fellowship empowers faculty to grow as educators, scholars, and leaders through mentorship, faculty development, educational innovation, scholarship, and a collaborative community of practice. Together, we are building a vibrant clinician-educator pathway that recognizes educational excellence and prepares faculty to shape the future of internal medicine training.
